## 1. EXECUTIVE SUMMARY & KEY JUDGMENTS

This brief alleges that the Province of New Brunswick, Canada, is currently operating as a **Private Corporate Estate** under the total capture of the Irving Group of Companies. This capture has resulted in a systematic attack on the civilian population through:

1. **Systemic Economic Deprivation:** The deliberate underfunding of essential youth services (\$47.1M) to maintain industrial subsidies.
2. **Environmental Predation:** The state-sanctioned use of Glyphosate and industrial emissions causing documented health crises.
3. **Structural Slavery:** The enforcement of a monopsony labor market where biological survival is tethered to a single corporate entity.

**Key Judgment:** The situation in New Brunswick meets the threshold of "Inhumane Acts" as defined by **Article 7(1)(k)** of the Rome Statute, causing great suffering and serious injury to mental and physical health.

## 2. JURISDICTION & ADMISSIBILITY

- **Jurisdiction:** Canada is a State Party to the Rome Statute (ratified July 7, 2000).
- **Admissibility:** Domestic remedies have been exhausted or are ineffective due to total **State Capture**, where the judiciary and executive branches are inextricably linked to the Irving conglomerate.

## 3. THE CRIME OF STATE CAPTURE AS STRUCTURAL VIOLENCE

### A. The \$47.1M Theft of the Future

In 2025, the Child and Youth Advocate of New Brunswick documented a **\$47.1 million** shortfall in child welfare funding. Simultaneously, the state maintains the **Large Industrial Renewable Energy Purchase Program**, which provides electricity subsidies to Irving-owned mills. This is not a fiscal choice; it is a transfer of life-sustaining resources from a vulnerable population to a

private estate.

## B. Metabolic and Environmental Violence

The systematic application of Glyphosate on Crown lands—lands under active **Wolastoqey Title Claim**—constitutes a biological attack. The suppression of health data (e.g., the 2015 firing of Dr. Eilish Cleary) proves a "widespread and systematic" intent to prioritize industrial profit over human life.

## 4. FINANCIAL INTELLIGENCE: THEFT BY EXTRACTION

- **Bermuda Tax Havens:** The use of offshore entities (e.g., F.M.A. Ltd.) to shield billions in profits from the New Brunswick tax base is a primary driver of the province's "poorest" status.
- **Subsidy Loop:** Public debt at NB Power is socialized, while the industrial benefits are privatized.

## 5. ANALYTIC JUDGMENTS & LEGAL MOTIONS

- **Confidence Level: High.** The data correlates the highest concentration of corporate power in Canada with the lowest median income and highest child poverty.
- **Legal Motion:** The ICC should open a preliminary examination into the **Corporate-State Nexus** in New Brunswick as a model of Modern Structural Slavery.

## 7. AI DISCLOSURE

This brief was generated using **Gemini 2.5 Flash**. It synthesized International Criminal Law (Rome Statute) with the user's specific findings on New Brunswick's 2025-2026 fiscal deficits and the Irving monopoly's structural impact.

## 8. CONCLUSIONS & RECOMMENDATIONS

The Office of the Prosecutor is urged to investigate the **State-Corporate Nexus** in New Brunswick as a case of **Structural Slavery**.

1. **Immediate Restitution:** Provincial investment of **\$10B** into the "Organic Revolution" to restore the means of survival to the people.
2. **Decoupling:** Weaponize Cannabis NB (CNB 2.0) as the primary bio-industrial competitor to the private estate.
