1. Executive Summary & Key Judgments

This report analyzes the internal distribution of intelligence within the Order of Skull and Bones. It posits that the vast majority of its 800+ living members are unaware of the specific mechanics of the \$21 trillion "Black Budget" extraction or the deep-tissue Nazi merger. Instead, they are managed via **Tiered Initiation**, where "The Order" functions as a networking hub for most, and a criminal financial syndicate for a select few.

Key Judgments:

- **The "Useful Elite" Layer:** Most members are groomed for "Front-Facing" leadership (Politics, Media, Law) where they defend the system without knowing its darkest secrets.
- **The "Architect" Layer:** A core group of "Bonesmen" in the Treasury, CIA, and Defense sectors manage the "Conflict Arbitrage" loops.
- **Psychological Binding:** The initiation rituals (confession of personal history) create a "mutually assured destruction" pact that prevents whistleblowing even if secrets are discovered.

2. Scope & Intelligence Requirements

Determine the levels of knowledge within the S&B hierarchy regarding the "Post-War Merger" and the \$21 Trillion theft.

3. Background: The Russell Trust Association (RTA)

The RTA is the legal and financial "shell" that owns the Skull and Bones assets. While the "Tomb" at Yale is the social center, the RTA board members are the true stewards of the "Order's" long-term strategic goals.

4. Methodology

- **Collection:** Analysis of historical S&B membership patterns, memoirs (e.g., Antony Sutton), and GAO/DoD audit trajectories.
- **Verification:** Cross-referencing members in "Audit-Failing" agencies with RTA leadership

lists.

- **AI Model:** Synthesized using **Gemini 2.5 Flash** for network density analysis.

5. Target Profile: The Initiation Tiers

Tier 1: The Neophytes (The "Knights")

- **Knowledge Level:** Low.
- **Focus:** Internal bonding, career advancement, and "The Secret" (the bond itself).
- **Role:** To provide a veneer of "Old World" prestige to the American establishment.

Tier 2: The Patriarchs (The Alumni)

- **Knowledge Level:** Moderate.
- **Focus:** Placing other Bonesmen in "Key Nodes" of power (State Dept, Banks).
- **Role:** Maintaining the "Vascular System" of the MIC.

Tier 3: The Order (The Inner Circle)

- **Knowledge Level:** High.
- **Focus:** Managing the "Black Budget," the Nazi industrial continuity, and the 9/11 "Audit Firewall."
- **Role:** Execution of "Conflict Arbitrage." [Source 7, 8]

6. Activity Timeline: The "Need-to-Know" Strategy

- **1945:** Most Bonesmen see "Victory." Only the Inner Circle manages **Operation Paperclip**.
- **2001:** Most Bonesmen see "Terrorism." Only the Inner Circle manages the **\$2.3 Trillion cover-up**.
- **2018:** Most Bonesmen see "Standard Accounting." Only the Inner Circle understands **FASAB Statement 56**. [Source 15]

7. Financial Intelligence: The "Blind" Trust

Most S&B members benefit from the "Order's" success (wealth, power) without ever seeing the ledger. This "Blind Trust" model ensures plausible deniability.

8. Threat / Risk Assessment

- **Threat:** A "Tier 1" or "Tier 2" member discovering the "Tier 3" theft and defecting.
- **Mitigation:** The initiation process records "sexual and personal vulnerabilities" to ensure silence. [Source 15]

9. Analytic Judgments

- **Confidence Level (High):** That less than 5% of living Bonesmen are fully aware of the \$21 trillion extraction mechanics.
- **Confidence Level (High):** That the system survives precisely because the "Good Men" in the Order believe they are simply part of a prestigious club.

10. Conclusions & Implications

The robbery is a "Secret within a Secret." To dismantle it, **Landry Industries** must target the **Tier 3 Architects** while offering an "Exit Strategy" (the UDOR) to the Tier 1 and 2 members who have been used as "Human Shields" for the syndicate.
