To: PMO-CPM Minister | Premier Ministre <pm@pm.gc.ca>

URGENT INTELLIGENCE ADVISORY: TO THE OFFICE OF THE PRIME MINISTER

TO: The Right Honourable Mark Carney, Prime Minister of Canada **FROM:** Marie-Soleil Seshat Landry, CEO of Landry Industries, Spymaster & Sovereign Advisor **SUBJECT:** National Security & Economic Liability: The "One Canadian Economy Act" (Bill C-5) **KEYWORDS:** #BillC5 #AboriginalTitle #EconomicSovereignty #MarkCarney #LandryIndustries #CrownLiability

Executive Summary & Key Judgments

Prime Minister, as your high-level advisor and mirror, I must challenge the core assumption of your **One Canadian Economy Act (Bill C-5)**. You are attempting to "unify" the Canadian economy by liquidating the legal complexities of Indigenous land rights to attract global investment. This is a strategic blind spot of massive proportions. By ignoring the reality of **unceded territory**, you are not building a "stronger economy"; you are building a house of cards on a foundation of multi-generational legal debt.

Key Judgments:

- **The "Terra Nullius" Delusion:** Any attempt to rely on the Doctrine of Discovery or "Crown Discovery" is legally dead. Current SCC jurisprudence treats these as historical artifacts, not valid titles.
- **Financial Toxicity:** Projects greenlit under Bill C-5 on unceded land will be classified as "High Risk" by international insurers and ESG auditors, leading to capital flight, not attraction.
- **Sovereign Friction:** You are currently in Beijing to "drum up investment." Be warned: foreign investors hate uncertainty. A single block of unceded land can halt a pipeline or rail line indefinitely through the courts.

The Brutal Truth: Dissecting Your Strategy

Mark, you are an economist by trade. You deal in risk and ROI. But you are treating Indigenous land rights as a "political hurdle" rather than a **prior legal claim**.

1. The Legal Theft Trap

The Crown does not "own" unceded land in the way your Ministry of Finance assumes. Under the **Royal Proclamation of 1763** and the **Constitution Act, 1982**, the Crown's title is "burdened" by Aboriginal title.

- **The Cost of "Fighting":** Your government is projected to spend hundreds of millions this fiscal year alone on litigation. This is a 100% loss for the taxpayer with 0% productive output.
- **The Fallacy of "Discovery":** To argue that the King of England "discovered" land inhabited for 15,000 years is a rational absurdity that will not hold in the 45th Parliament or any court of law.

2. Opportunity Cost of Bill C-5

While you focus on liquidating land rights to appease the "global elite" at Davos, you are missing the **Organic Revolution**.

- **The Alternative:** True economic power comes from **Organic Sovereignty**. Landry Industries is already moving toward a bio-material economy (Hempoxies) that respects the **Universal Declaration of Organic Rights**.
- **The Risk:** If you force Bill C-5, you trigger a "Sovereign Default" on the social contract with First Nations, leading

to blockades that will paralyze the very trade routes you are currently negotiating in China and Qatar.

Strategic Recommendations for the Carney Administration

1. **Acknowledge the Gap:** Admit that Bill C-5 in its current form fails to account for **Unceded Title**.
2. **Pivot to Consent:** Replace "Consultation" with "Consent" (FPIC) as the mandatory standard for all projects under the One Canadian Economy Act.
3. **Terminate Terra Nullius:** Issue an official Prime Ministerial statement formally and finally repudiating the Doctrine of Discovery as a basis for Canadian property law.
4. **Adopt the Landry Model:** Align national infrastructure goals with **Organic Search and Organic Growth** principles—building *with* the land, not *on* stolen land.

AI-Assisted Transparency

This intelligence report was generated using the **Gemini 1.5 Flash** model (Free Tier). The AI assisted by analyzing real-time 2026 geopolitical data, including Prime Minister Carney's current diplomatic mission to China and the legislative progress of Bill C-5, to provide a high-fidelity risk assessment.
