### (Verse 1)

He stepped off the plane from the Bank of the Thames With a Goldman handshake and a crown of gold gems He talks about "Nation-Building," "Bold" and "Strong" But the rhythm of the soil says he's got it all wrong. He's got a \$78 billion hole in the floor [1.1](#) While the people pay the price at the grocery store. He's cutting forty thousand from the civil service line [4.2](#) To feed the "Bulldozer" and make the metrics shine.

### (Chorus)

Oh, Mark Carney's Bulldozer, the corporate steamroller He's the high-finance king and the cold-heart controller. He's paving over Acadie with a technocrat's dream While the spirit of the land starts to bubble and scream. Through Bill C-5, he's fast-tracking the PONIs [2.3](#) Selling out the future to his boardroom cronies!

### (Verse 2)

"One Economy," he says, "not thirteen!" [4.3](#) But it's just a "Shock Doctrine" to keep the gears clean. He's "Super-Deducting" for the drills and the mines [5.2](#) While the **Organic Revolution** is crossing the lines. He's got funds in Bermuda by a bicycle shop [6.1](#) But the **Queen of Acadie** says the gears gotta stop. He claims "Buy Canadian" is his brand new plan [1.2](#) But he's just the same shark in a different van.

### (Bridge)

He calls it "Productivity," we call it "Extraction" He wants the "Super-Growth," we want the "Satisfaction." He skips the consultation, he ignores the Title [3.2](#) But the **Declaration of Lands** is the new survival vital. From the Cayman Islands to the Parliament hill [6.3](#) He's crushing the living for the corporate thrill!

### (Guitar Solo / Industrial Soundscape)

## (Chorus)

Oh, Mark Carney's Bulldozer, the corporate steamroller  
He's the high-finance king and the cold-heart controller.  
He's paving over Acadie with a technocrat's dream  
While the spirit of the land starts to bubble and scream.  
Through Bill C-5, he's fast-tracking the PONIs [2.3](#) Selling out  
the future to his boardroom cronies!

## (Outro)

He's building for 1980, we're building for 2030. [3.1](#) He's keeping it sterile, we're keeping it "dirty"— Meaning soil, and roots, and the **Hempoxy** frames, While the "Bulldozer" burns in its own greedy flames. The **Organic Revolution** is here to stay, And the "Bulldozer" belongs in the yesterday.

*(Fades out with the sound of a forest growing through asphalt)*
